Dear Sirs

RE: FERNHILL SCHOOL, NEVILLE DUKE ROAD, FARNBOROUGH (4796)

Following the successful handover of the Sports Hall to the above site, we would like to advise you that the school were very pleased with what they called "a fabulous building".

Furthermore, the Architects have expressed their thanks to everyone included for all the hard work (and suffering!) in making this project happen. We ourselves, are very pleased with the project and understand the hard work and efforts involved in achieving the end product and would like to thank you as well.

Now we have set the standard, we need to demonstrate that we can improve on delivery and quality. At Test Valley School which is now underway, Alderman Quilley which should start at Easter, and Hounslowdown in May 2004, all need to benefit from our work at Fernhill.

We would request that you all take time to consider how the project went and advise ourselves of any changes in the detail, method and programme of construction that would be of benefit to all parties.

Thank you again for your efforts and we look forward to your suggestions.

Yours faithfully
For and on behalf of Brazier Construction

J C Smith
