Neil,

I understand that your roofing subcontractor Gables will be leaving site shortly.
May I take this opportunity of thanking them for all the works they have carried out at the depot and the way they have managed themselves in responding to the depot needs to keep it operational at all times with a minimal of disruption.
For the size of the scheme and number of men on site I am pleased that I have had to date no accident or safety reports to be sent to my safety officer.
May I thank you and gables once again for all your efforts.

Yours Sincerely
