To Whom It May Concern:

Dear Sirs

Stewarts Lane Maintenance Depot Battersea – Cladding Works

Mr B. Burnett and Mr P. Barfoot have been employed on a sub contract basis at the above location for the past 10 months. Within this period approximately 16,000 m2 of existing roof covering has been removed and replaced with new single skin metal roof sheeting. Both have demonstrated a high standard of knowledge with regard to both workmanship and materials, whilst working safely within a live railway environment. The standard of work produced has always been to a high quality of finish. The disruption to normal operations within the depot has been minimal, with many depot staff unaware as to the extent of work that has been undertaken around them.

Yours faithfully,

Neil Cleaveland
Site Manager

Re: Waste to Energy Facility, Portsmouth

To whom it may concern

Gable carried out the Envelope Package to the above project and were based on site for over 18 months.

Despite numerous difficulties on this very demanding project, Gable always showed a positive attitude in bringing problems to a conclusion and their safety record and quality of work were excellent.

Their team was always available and the trust built up over the contract period from design through to execution resulted in both parties working well together.

I would have no hesitation in working with Gable again.

Yours sincerely

Malcolm Attrill
Construction Manager

Dear Sirs

QUILLEY SCHOOL OF ENGINEERING – Sports Hall Cladding Repairs

The Department undertakes regular monitoring of Contractor's performance and a Client Feedback Report has been received on completion of the above contract.

The overall performance for this contract was scored by the client as excellent and I take this opportunity to congratulate the firm on this achievement.

The report covers a number of aspects, including compliance with Health and Safety requirements, quality of workmanship, progress of the works, consideration for other site users, and assessment of overall performance.

Thank you for the efforts of the firm in connection with the above contract.

Yours faithfully,

Property, Business and Regulatory

Roofing Works Brighton Engineering

Dear Paul,

I would like to express my thanks for the first class job that was carried out by Gables in replacing the roof lights of the depot. The attitude of the workforce was exemplary towards our staff and other contractors on site. The standard of workmanship was excellent and the site was always left tidy and waste recycled where possible. I was also especially pleased that the work was completed well within the timescale. I would not hesitate in using Gables on any other project for the depot or indeed recommending them to another company, please find enclosed customer project review.

With Kind Regards

John Poulton
